AUTHOR INDEX

A

Abernethy, P. J., *with* **Dennyson, W. G.** Decompression of the extensor tendons at the wrist in rheumatoid arthritis, *64.

Achterman, C., *with* **Kalamchi, A.** Congenital deficiency of the fibula, *133.

Ackroyd, C. E., *with* **Hobbs, C. A.** The use and effectiveness of seat belts, 518.

with **Houghton, G. R.** Sleeve fractures of the patella in children, *165.

Ahmed, A., *with others.* Improved fixation of knee arthroplasty components by the injection of acrylic cement into cancellous bone surfaces, 515.

Aichroth, P. M., *with others.* Total replacement of the knee *(correspondence),* 228.

Albert, L., *with others.* Five years experience in the Septic Unit of the Department of Orthopaedic and Traumatic Surgery, 118.

Alexander, J. P., *with* **Barron, D. W.** Biochemical disturbances associated with total hip replacement, *101.

Alexopoulos, A., *with others.* School screening for scoliosis in Athens, *215.

Alldred, A. J. Foot injuries caused by powered lawn-mowers *(discussion),* 385.

Allerton, K. E. G. External fixation at Groote Schuur Hospital, 252.

Alonso de Ros, J. F., *with others.* The use of Wagner's distraction apparatus in the lengthening of the radius in children, 119.

Alvarez, J. Rodriquez, *see* Rodriquez Alvarez, J.

Anchuelo, M. Rodriquez, *see* Rodriquez Anchuelo, M.

Anderton, J. M. Orthopaedic problems in adult hypophosphatasia, *82.

Angel, J. *Book review,* 391.

Ansell, B. M., *with* **Wynn Jones, C. H., and Arden, G. P.** A prospective study of Benjamin double osteotomy of the knee in rheumatoid arthritis and osteoarthritis, 121.

Antuña-Zapico, J. M. Kienböck's disease, 119.

Arden, G. P., *with* **Vanhegan, J. A. D., and Dabrowski, W.** A review of 100 Attenborough stabilised gliding knee prostheses, *445.

with **Wynn Jones, C. H., and Ansell, B. M.** A prospective study of Benjamin double osteotomy of the knee in rheumatoid arthritis and osteoarthritis, 121.

Arias, G. Riquelme, *see* Riquelme Arias, G.

Armour, P., *with* **Coates, R.** The treatment of subcapital femoral fractures by primary total hip replacement, 386.

Armstrong, P., *with* **Hull, R.** Prevention of postoperative venous thrombosis by intermittent calf compression using a pulsatile elastic stocking on patients undergoing elective knee surgery, 242.

Ashworth, A., *with others.* Sequelae of dislocation of the hip in spastic cerebral palsy, 244.

Atkinson, R. N. Ipsilateral fracture of the femur and tibia: a retrospective survey, 239.

Auleda, J., *with others.* The use of Wagner's distraction apparatus in the lengthening of the radius in children, 119.

B

Bailey, W. H., *with others.* The results of revision of total hip arthroplasty, *419.

Baixauli Castella, F., *with* **Ferrer Valldecabres, J., and Mut Oltra, T.** Trochanteric fractures of the hip. Treatment with R. A. B. (Resistencia Aumentado Baixauli) plate and immediate weight-bearing, 127.

Banniza von Bazan, U. The association between congenital elevation of the scapula and diastematomyelia, *59.

Barjau, R., *with* **Beltran, J. E., and Moreno, V.** The open palm and digit technique in the treatment of Dupuytren's contracture, 119.

Barnes, J. Rib resection in infantile idiopathic scoliosis, *31.

Barnes, K. L., *with* **Johnson, R., and Owen, R.** Reactivation of tuberculosis after total hip replacement, *148.

Barrett, A., *with others.* The physiological effects of the application of a tourniquet, 380.

Barrett, I. R. The orthopaedic surgeon's role in child abuse, 239.

Barrie, H. J. The pathogenesis and significance of meniscal cysts, *184.

Barrington, T. W., *with* **Grobbelaar, C. J., and Simmons, E. H.** Intervertebral disc herniation in the adolescent, 256.

Barron, D. W., *with* **Alexander, J. P.** Biochemical disturbances associated with total hip replacement, *101.

Bartolozzi, P., *with* **Scaglietti, O., and Marchetti, P. G.** The effects of methylprednisolone acetate in the treatment of bone cysts, *200.

Barton, N. J. *Book reviews,* 131, 524.

Basson, W. J. Trochanter fixation by means of a U-bolt in total hip replacement, 252.

Bates, E. H. Evaluation of the Pavlik harness in the treatment of congenital dislocation of the hip *(discussion),* 236.

The orthopaedic surgeon's role in child abuse *(discussion),* 239.

Bathfield, C. A., *with* **Versfeld, G. A., and Schepers, A.** Overgrowth following femoral fractures in children, 256.

Bedbrook, Sir George. Spinal injuries with tetraplegia and paraplegia *(review article),* *267

Beddow, H. Basal osteotomy of the first metatarsal (Golden) for the treatment of adolescent hallux valgus *(discussion),* 520.

Beguiristain, J. L., *with* **Cañadell, J.** Experimental scoliosis by epiphysiodesis of the neurocentral cartilage in pigs, 121.

Beighton, P. H., *with others.* Comparison of the prevalence of hallux valgus in three South African populations, 254.

Bell, H. M., *with* **Tredwell, S. J.** Assessment of the value and effects of neonatal hip screening, 244.

Beltran, J. E., *with* **Barjau, R., and Moreno, V.** The open palm and digit technique in the treatment of Dupuytren's contracture, 119.

Benson, M. K. D. *Book reviews,* 390, 525.

with others. Prophylactic antibiotics following total hip replacement, 118.

Bentivoglio, J. E. C., *with* **Gray, I. C. M.** Acute haematogenous osteomyelitis of the pelvic bones in children, 125.

Bentley, G. Acute haematogenous osteomyelitis of the pelvic bones in children *(discussion),* 125.

The behaviour of upper femoral osteotomies performed for Perthes' disease, 517

Book review, 262.

with **Thompson, S. K.** The prognosis of infantile idiopathic scoliosis, 512.

Bernal, J. J., *with others.* Congenital pseudarthrosis of the tibia: long-term follow-up of forty cases, 246.

Bernardez, D. Cachero, *see* Cachero Bernardez, D.

Bingold, A. C. On splitting plasters, *294.

Biswas, M., *with others.* The physiological effects of the application of a tourniquet, 380.

Black, J., *with* **Brighton, C. T., and Friedenberg, Z. B.** Direct current stimulation in the treatment of acquired non-unions, 512.

with others. A study of the radiological appearances of the calcar femorale after total hip replacement using a collarless femoral component, 514.

Black, J. J. McF. Osteomalacia and femoral neck fractures *(discussion),* 385.

Blakemore, M. E., *with* **Harrison, M. H. M.** A prospective study of children with untreated Catterall Group 1 Perthes' disease, 125, *329.

Blockey, N. J. *Book reviews,* 524, 526.

Bobechko, W., *with* **Chapman, H.** Congenital vertical talus, 246.

Bohlman, H. H. Late anterior decompression for spinal cord injury: review of seventy cases with long-term results, 243.

Boix, J. R. Cabot-, *see* Cabot-Boix, J. R.

*Indicates full article.

Bonney, G., *with* **Jamieson, A. M.** An analysis of the operative findings in brachial plexus traction lesions treated between 1956 and 1978, 516.

Boome, R., *with others.* The load distribution under the foot in the assessment of abnormalities of foot function, 254.

Boquist, L., *with* **Lorentzon, R., and Larsson, S.-E.** Extra-osseous osteosarcoma, *205.

Bosch-Mayol, G., *with* **Schajowicz, F., and Rebecchini, A. C.** Intracortical haemangioma simulating osteoid osteoma, *94.

Bossley, C. J., *with* **Cairney, P. C.** Morton's interdigital neuroma, 384.

Bowker, J. H., *with others.* Fractures in lower limbs with prior amputation, 246.

Brackenbury, P. H., *with* **Khan, M. A. A., and Reynolds, I. S. R.** Fate of the dislocated total hip replacement, 516.

Brighton, C. T., *with* **Friedenberg, Z. B., and Black, J.** Direct current stimulation in the treatment of acquired non-unions, 512.

Britten, S., *with others.* A study of stump growth in children with below-knee amputations, *464.

Brooks, D. The surgical management of peripheral nerve tumours, 259.

Broström, L.-Å., *with others.* The effect of biopsy on survival of patients with osteosarcoma, *209.

Brotherton, B. J., *with* **Channon, G. M.** The ball and socket ankle joint, *85.

Brown, C. Court-, *see* Court-Brown, C.

Brown, D. C., *with* **Hyndman, J. C.** Major ligamentous injuries of the knee in children, 245.

Brown, T. I. S., *with* **Court-Brown, C.** Failure of sliding nail-plate fixation in subcapital fractures of the femoral neck, *342.

Browne, R. S. The management of late diagnosed congenital dislocation and subluxation of the hip, *7.

with **Paton, D. F.** Anomalous insertion of the tibialis posterior tendon in congenital metatarsus varus, *74.

Buchholz, H. W., *with others.* The management of deep infection involving joint implants, 118.

Buck, J. E. *Book review,* 132.

Further thoughts on direct repair of the defect in spondylolysis, 123.

Burch, P. R. J., *with* **Nevelös, A. B.** Hip dysplasia without dislocation in one-year-old boys, *26.

Burke, D. L., *with* **Feldges, D., and Freeman, M. A. R.** The clinical importance of the rheumatoid hindfoot with special reference to calcaneofibular impingement, 244.

with others. Improved fixation of knee arthroplasty components by the injection of acrylic cement into cancellous bone surfaces, 515.

Burwell, R. G. *Book review,* 389.

with **Hall, D. J., and Harrison, M. H. M.** Congenital abnormalities and Perthes' disease, *18.

with others. The prognosis of infantile idiopathic scoliosis, 513.

Bushell, G. R., *with others.* The collagen of the intervertebral disc in adolescent idiopathic scoliosis, *501.

Buys, P. J., *with* **Slabbert, N. P.** Upper limb deformities due to barred spitting cobra bite: a new approach to initial management, 259.

Buys, S., *with* **Pompe van Meerdervoort, H. F.** Major knee ligament injuries, 250.

SUBJECT INDEX

A

A.B.C. Travelling Fellowships: visit of British fellows to North America, 1978, 229.
Accident(s), *see also* Fractures; Injuries.
services: survey of first 100 patients treated at the Regional Trauma Unit, Toronto, 247.
traffic: use and effectiveness of seat belts, 518.
Acetabuloplasty
for congenital dislocation of hip, 7.
innominate osteotomy
— Chiari's
— — for congenital dislocation of hip in children over six years old, *1.
— — for hip dysplasia in the young adult, 253.
— for Perthes' disease, 236.
Acetabulum
fractures
— central, 248.
— total hip replacement for, 252.
protrusion of: protrusive osteoarthritis, valgus osteotomy for, *424.
Achilles tendon, *see* Tendo calcaneus.
Acrylics: methyl methacrylate bone cement
impregnation with antibiotics
— cephalosporins: studies *in vitro* and *in vivo*, *96.
— effect on its physical properties, 379.
— gentamicin, 241.
— in management of deep infection involving joint implants, 118.
— rate of release of antibiotics, 378.
in external skeletal fixation of fractures, 237, 252.
in hip replacement
— factors affecting shear strength of cement-bone junction in femur, 118.
— systemic effects, *101, 515.
in knee replacement: improved fixation of components by injection of cement into cancellous bone surfaces, 515.
Adrenocortical steroid therapy
local injection of methylprednisolone acetate for simple bone cysts, *200.
necrosis of femoral head after: pre-clinical changes and their bearing on pathogenesis and treatment, 126.
Albert Medal (Royal Society of Arts) awarded to Sir John Charnley, 117.
Alclofenac in treatment of rheumatoid arthritis, 251.
Alcohol intake, relation to femoral head necrosis, 254.
Alcoholics, necrosis of femoral head in: pre-clinical changes and their bearing on pathogenesis and treatment, 126.
Amputations, traumatic, of upper limb digits, replantation after, 517.
Amputees
juvenile, below-knee, stump growth in, *464.
lower limb, fractures of stumps in, 246.
Aneurysm, traumatic, complicating Dwyer instrumentation, 239.
Ankle
arthrodesis, tarsal hypermobility after: fact or fiction? *470.
"ball and socket", *85.
dislocation, spontaneous, in diabetic neuropathy, *484.
fractures in adults: the case for operation, 240.
instability, reconstruction of anterior talofibular ligament for, *352.
ligament, lateral, rupture of, diagnosis by stress tenography, *347.
mechanics, 235.
Ankylosing spondylitis, osteotomy of spine in, 244.
Ankylosis: joint reconstruction using the "articular distractor", 516.
Antibiotics
incorporation in bone cement
— effect on its physical properties, 379.
— in management of deep infection involving joint implants, 118.
— of cephalosporins: studies *in vitro* and *in vivo*, *96.
— of gentamicin, 241.
— rate of release, 378.
prophylactic, in hip replacement, 118.
tissue concentrations of, 260.
Arthritis
degenerative, *see* Osteoarthritis.
infectious, of hip
— healed septic and tuberculous arthritis, low-friction arthroplasty for, *144.
— in infancy, dislocation in, 514.
rheumatoid, *see* Rheumatoid arthritis.
tuberculous, *see under* Tuberculosis.
Arthrodesis, *see under specific joints etc.*
Arthropathy
Charcot's
— in syringomyelia, 316.
— of foot and ankle in diabetics, 244.
— — spontaneous dislocations without bone destruction, *484.
haemophilic, *see under* Haemophilia.
Arthroplasty, *see also under specific joints.*
of ankylosed joints using the "articular distractor", 516.
replacement
— acrylic cement in, impregnation with antibiotics
— — cephalosporins: studies *in vitro* and *in vivo*, *96.
— — effect on its physical properties, 379.
— — rate of release of antibiotics, 378.
— metal sensitivity as cause of failure of, determination by new immunological technique, 240.
— polyethylene in: wear on bone and cartilage, *498.
Arthroscopy of knee, 233, 382.
closed partial meniscectomy under control of, 128.
review of non-operative cases, 241.
Athletic injuries, *see under* Injuries.
Atlanto-axial joint instability: os odontoideum, 242.
Atlas vertebra, fractures, 237.
Attenborough, Christopher George *(obituary)*, 510.
Attenborough total knee replacement, *445.
Australian Orthopaedic Association, annual meeting, 1978, 235.
Autoradiographic study: mechanism of uptake of technetium-labelled diphosphonate by rat bone, *221.
Axis vertebra: os odontoideum, 242.

B

Back, *see also* Spine; Intervertebral discs.
pain, low, radio-frequency rhizolysis for, 247.
Barry, Hugh, recipient of L. O. Betts Medal, 235.
Battered child syndrome, 239.
Belfast, Queen's University, appointment of R. I. Wilson as first Professor of Orthopaedic Surgery, 378.
Benjamin's double osteotomy of knee for rheumatoid arthritis and osteoarthritis, 121.
Betts, L. O., Medal, awarded to Hugh Barry, 235.
Biomechanics, 233.
Biomedical engineering: rehabilitation engineering in the care of the physically handicapped child, 236.
Biopsy of bone in osteosarcoma, effect on patient survival, *209.
Birmingham University, Robert Jones Chair of Orthopaedics, appointment of B. T. O'Connor to, 117.
Birth injuries of brachial plexus, 260.
Bladder, urinary, paralysis due to midline prolapse of intervertebral disc, *43.
Blood flow
in bone, *see* Bone blood flow.
in hand: investigation of hand stiffness using Doppler ultrasound, radionuclide scanning and thermography, 519.
Bone(s), *see also specific bones; and terms beginning with* Ost-.
biopsy in osteosarcoma, effect on patient survival, *209.
blood flow: regional distribution of circulating microspheres in rabbit femur, 381.

*Indicates full article or appreciable part.

Bone(s) *(continued)*:
cement, *see under* Acrylics.
cysts
— simple
— — old fibrin coagula in, and their ossification, *194.
— — treatment by topical injection of methylprednisolone acetate, *200.
— subchondral: clinicopathological study of 88 cases, *107.
deformities, *see* Deformities.
disease in prehistoric animals, 247.
grafting
— autogenous, in resection-arthrodesis for tumours about knee, *455.
— free vascularised fibular transplant for replacement of lower radius, *362.
— homogenous, in Cloward anterior cervical fusion, 242.
growth, *see also* Fracture healing; Ossification; Osteogenesis.
— role of periosteum in: experimental study in rabbit, *218.
— stimulation due to fractures of femur in children, 256.
— stump growth in children with below-knee amputations, *464.
infections, *see* Osteomyelitis; Tuberculosis.
lengthening by distraction, of radius in children, 119.
necrosis, *see under* Femur, head of.
Paget's disease, hypercalcaemia in, 385.
sclerosis, *see* Melorheostosis.
sesamoid, of hallux, osteomyelitis of, 384.
tumours, 230.
— *see also* Bone cysts.
— about knee, resection-arthrodesis for, using an intramedullary nail and autogenous bone grafts, *455.
— chondrosarcoma
— — histological grading of *(editorial)*, 393.
— — review of behaviour of, *395.
— fibrosarcoma and malignant fibrous histiocytoma arising in relation to enchondroma, *366.
— haemangioma, intracortical, simulating osteoid osteoma, *94.
— of spine, treatment, operative, anterior approach for, 517.
— osteoclastoma
— — of distal radius
— — — involving carpus, 236.
— — — treated by resection and free vascularised fibular transplant, *362.
— — of spine, radioresistant, treated by removal of third thoracic vertebra and partial lung resection, *489.
— osteoid osteoma
— — recurrent, 384.
— — simulated by intracortical haemangioma, *94.
— osteosarcoma
— — effect of biopsy on patient survival *209.
— — extra-osseous: clinical and histopathological study of four cases, *205.
— — new developments in diagnosis and treatment, 513.
— pseudomalignant myositis ossificans, 246.
turnover in osteoarthritis and osteoporosis, 257.

week-end instructional course, 1980, January *(announcement)*, 260, 387.

British Orthopaedic Research Society, meeting, 1978, autumn, 378.

Bryant's traction, Volkmann's contracture complicating, *285.

C

Calcaneal tendon, *see* Tendo calcaneus.

Calcaneus, fractures
early posterior subtalar fusion for, *90.
tarsal tunnel syndrome complicating, 123.

Calcium, *see also* Hypercalcaemia.

Calvé-Legg-Perthes disease, *see* Osteochondritis juvenilis of hip.

*Indicates full article or appreciable part.

Canadian Orthopaedic Association, annual meeting, 1978, 241.
Carbon fibre
in repair of osteoarthritic articular cartilage: experimental study, 381
induction of ligament formation by, in sheep and man, 120.
Proplast-coated Thompson hip prostheses, tissue response to, 381
Carpus, *see* Wrist.
see also Lunate bone; Triquetrum.
Cartilage, *see also terms beginning with* Chondr-
articular
— nutrition, 124.
— osteoarthritic, repair with filamentous carbon fibre: experimental study, 381
epiphysial, *see* Bone growth.
tumours, *see under* Bone tumours.
Casts, *see* Plaster of Paris.
Cauda equina compression due to midline prolapse of intervertebral disc, *43.
Cephalosporins in bone cement: studies *in vitro* and *in vivo*, *96.
Cerebral palsy
foot in: equinus deformity, lengthening of Achilles tendon for, 255.
— variation in long-term results, *466.
hip in, dislocation, sequelae of, 244.
Chacha, Pesi B., appointed to Chair of Orthopaedic Surgery, University of Singapore, 117
Charcot's arthropathy
in syringomyelia, 316.
of foot and ankle in diabetics, 244.
— spontaneous dislocations without bone destruction, *484.
Charnley, Sir John, awarded Albert Medal, 117
Charnley low-friction arthroplasty of hip
for healed septic and tuberculous arthritis, *144.
infection after, 252.
reactivation of tuberculosis after, *148.
Chiari osteotomy of pelvis
for congenital dislocation of hip in children over six years old, *1.
for hip dysplasia in the young adult, 253.
Chondroma: fibrosarcoma and malignant fibrous histiocytoma arising in relation to enchondroma, *366.
Chondromalacia of patella
importance of femoral rotation in, as shown by serial radiography, *435.
in the young adolescent, 250.
patellectomy for, 242.
results of surgical treatment, 241.
Chondrosarcoma
histological grading of *(editorial)*, 393.
review of behaviour of, *395.
Cloward anterior cervical fusion using allograft bone, 242.
Club foot, 232, 255.
aetiopathology, embryological contribution to, 127
anatomy, 378.
muscle and connective tissue structure in, 251
muscle histochemistry in, 383.
treatment
— Dillwyn Evans delayed collateral operation: late results, 127, *474.
— radical soft tissue surgery for severe deformity, 383.
Club hand, radial, post-traumatic, treated by lengthening of radius using Wagner's distraction apparatus, 119.
Collagen of intervertebral discs in adolescent idiopathic scoliosis, *501.
Colles's fracture, hand stiffness after: investigation using Doppler ultrasound, radionuclide scanning and thermography, 519.
Compartment syndromes, *see* Volkmann's ischaemia.
Congenital abnormalities, association with Perthes' disease, *18.
Connective tissue fibre abnormalities in club foot, 251.
Contractures
Dupuytren's, *see* Dupuytren's contracture.
in melorheostosis, *415.
ischaemic, *see* Volkmann's ischaemia.
Corticosteroids, *see* Adrenocortical steroids.
Cotrel's dynamic traction, 122.
Cotrel's night traction for prevention of curves in scoliosis, 245.
Coxa plana, *see* Osteochondritis juvenilis of hip.
Cruciate ligaments
anterior
— injuries, pivot shift phenomenon in, cause and mechanics of, 519.
— regeneration, induction by carbon fibre in sheep and man, 120.
blood supply, 120.
posterior: clinical and laboratory study, 241.
prosthetic, 238.
Cysts, *see* Bone cysts; *and under structures involved.*

D

Darrach's operation (excision of head of ulna) in rheumatoid arthritis, 64.
Debeyre supraspinatus slide operation for rotator cuff repair, 243.
Deformities
congenital, association with Perthes' disease, *18.
of long bones, angular, correction by osteotomy-osteoclasis, *410.
Dens: os odontoideum, 242.
Desmoid tumour, extra-abdominal, *373.
Diabetes mellitus
neuropathic foot deformities in, 244.
spontaneous dislocations of foot or ankle in, *484.
Diastematomyelia, association with congenital elevation of scapula, *59.
Diphosphonates, technetium-labelled, in bone scanning, biological basis of, studied by autoradiography, *221.
Discography, 256.
Discs, intervertebral, *see* Intervertebral discs.
Dislocations, *see under specific joints.*
Dupuytren's contracture, treatment: open palm and digit technique, 119.
Dwyer anterior instrumentation of spine, paravertebral infection and fatal traumatic aneurysm complicating, 239.
Dysplasia epiphysialis capitis femoris, *26.

E

Edinburgh brace in treatment of progressive infantile idiopathic scoliosis, *36.
Elbow
arthroplasty using a Silastic sheet insert, in rheumatoid arthritis, 123.
dislocation, posterior, with fracture of head of radius, Silastic replacement of head of radius in, *494 *(discussion,* 520).
rheumatoid, surgery of:
— arthroplasty using a Silastic sheet insert, 123.
— synovectomy, place of excision of radial head in, *69.
ulnar neuritis at, results of operation for, *159.
Electromyographic studies:
segmental neurophysiological mechanisms in scoliosis, *310.
subluxation of patella, *169.
Electron microscope study: effect of pneumatic tourniquets on ultrastructure of skeletal muscle, *178.
Enchondroma, *see* Chondroma.
Ender nailing
of proximal femoral fractures, 239, 248.
of trochanteric fractures, 127
Epidurography, 237, 247.
Epiphyses, *see under specific bones.*
Epiphysial cartilage, *see* Bone growth.
Ergotamine, gangrene induced by, *213.
Evans, Dillwyn, collateral operation for relapsed club foot, 127, *474.
Extremities, *see* Limbs.

*Indicates full article or appreciable part.

F

Fat embolism during hip replacement, *101
Femur
architecture of proximal end of: trabecular pattern index in osteoarthritis and fractures of femoral neck, 257.
blood flow in: regional variations studied by circulating microspheres in rabbit, 381.
congenital deformities, 244.
— proximal dysplasia, 254.
epiphysis, capital
— dysplasia epiphysialis capitis femoris, *26.
— osteochondritis juvenilis of, *see under* Hip.
fractures
— involving distal epiphysial plate, 248.
— of neck of, 232.
— — femoral trabecular pattern in, 257
— — in rheumatoid arthritis, 520.
— — osteomalacia associated with, 385.
— — treatment
— — — arthroplasty, total replacement, primary, 386.
— — — sliding nail-plate fixation, failure of, *342.
— — — subluxation or dislocation following pinning, 248.
— of proximal end of, Ender nailing for, 239, 248.
— of shaft of
— — in children
— — — bone overgrowth after, 256.
— — — Volkmann's contracture complicating, *285.
— — treatment
— — — cast-brace and early walking, *151 (*discussion*, 385).
— — — immediate hip spica, 235.
— — — medullary nailing: rigid fixation for difficult fractures, 237.
— — — operative *versus* conservative, 248.
— pathological, in adult hypophosphatasia, *82.
— subtrochanteric, 232.
— trochanteric, 232.
— — treatment
— — — Ender nailing, 127.
— — — R.A.B. plate and immediate weight-bearing, 127.
— — unstable, medial displacement osteotomy for, 248.
— with ipsilateral fracture of tibia, 239.
head of
— blood supply: relevance to hip reconstruction, 236.
— blood supply and ossification, effect of articular postural and pressure changes, 125.
— necrosis, avascular, *see also* Hip, osteochondritis juvenilis.
— — after treatment of congenital dislocation of hip, 124.
— — idiopathic
— — — histological study, *138.
— — — pre-clinical changes and their bearing on pathogenesis and treatment, 126.
— — in alcohol drinkers, 254.
mechanics: shear strength of trabecular bone and factors affecting cement-bone bond in hip replacement, 118.
osteotomy, distal, *see also* Knee osteotomy, double.
osteotomy, proximal
— derotational, in congenital dislocation of hip, 7.
— for Perthes' disease, 517.
— medial displacement, for unstable trochanteric fractures, 248.
— valgus, for severe osteoarthritis of hip, *424.
osteotomy-osteoclasis for correction of angular deformities, *410.
shortening of, surgical, in reduction of congenital dislocation of hip, *1, *7.
tumours of distal end of, treatment by total resection, autogenous bone grafting and arthrodesis of knee, *455.
Fibroma: desmoid tumour, extra-abdominal, *373.
Fibrosarcoma of bone arising in relation to enchondroma, *366.
Fibrous histiocytoma, malignant, *190.
of bone arising in relation to enchondroma, *366.
Fibula
congenital absence, Gruca operation for, 240.
congenital deficiency, *133.
grafts from: free vascularised transplant for replacement of lower radius, *362.
Fingers, *see also* Hand; Thumb.
replantation, 517
triggering, 383.
Firework hand, 120.
Flat foot: congenital vertical talus, 246.
treatment, *481.
Foley, Walter Barham *(obituaries)*, 509.
Foot, *see also* Ankle; Tarsus; Toes.
club, 232, 255.
— aetiopathology, embryological contribution to, 127
— anatomy, 378.
— muscle and connective tissue structure in, 251
— muscle histochemistry in, 383.
— treatment
— — Dillwyn Evans delayed collateral operation: late results, 127, *474.
— — radical soft tissue surgery for severe deformity, 383.
congenital deformities
— association with ball and socket ankle joint, *85.
— metatarsus varus, anomalous insertion of tibialis posterior tendon in, *74.
deformities of forefoot in adults, a common cause of, 384.
diabetic neuropathic deformity of, 244.
— spontaneous dislocations without bone destruction, *484.
embryology, 127.
flat: congenital vertical talus, 246.
— treatment, *481.
injuries caused by powered lawn mowers, 385.
mechanics
— immobility of second metatarsal: significance and pathological consequences, 240.
— plantar pressures in assessment of abnormalities of foot function, 254.
metatarsalgia, Morton's, 384.
rheumatoid
— forefoot involvement, forefoot arthroplasty for, 519.
— hindfoot involvement, 244.
spastic: equinus deformity, lengthening of Achilles tendon for, 255.
— variation in long-term results, *466.
Forearm fractures in children, Volkmann's contracture complicating, *285.
Forefoot arthroplasty in rheumatoid arthritis, 519.
Fracture(s), 231.
see also under structures involved.
healing
— contrasting effects of vitamin D_3 and of 1α-hydroxy vitamin D_3 on, 380.
— stimulation by direct current
— — clinical studies, 238, 512.
— — effect of varying current level, 240.
in children: battered child syndrome, 239.
malunion, osteotomy-osteoclasis for, *410.
treatment, external skeletal fixation, 237, 252.
Freeman-Swanson arthroplasty of knee, *see* I.C.L.H. arthroplasty of knee.

G

Gait, *see* Locomotion.
Ganglia, intraosseous, *see* Bone cysts, subchondral.
Gangrene induced by methysergide and ergotamine, *213.
Gentamicin, incorporation in bone cement, 241.

diagnosis and measurement
— surface shape deformity, 379.
— school screening in Athens, *215.
— Shriner's flexicurve assessment of hump deformities, 245.
experimental, by epiphysiodesis of neurocentral cartilage in pigs, 121.
idiopathic
— disc collagen in, *501.
— infantile
— — prognosis, 122, 512.
— — progressive, treatment, *36.
— — — rib resection in, *31.
in neurofibromatosis, 258.
in spina bifida, 122, 258, 386.
in syringomyelia, *314.
segmental neurophysiological mechanisms in, *310.
treatment
— Dwyer anterior instrumentation and fusion, paravertebral infection and fatal traumatic aneurysm complicating, 239.
— operative, morbidity in, 245.
— traction
— — Cotrel's night traction, 245.
— — pre-operative, Cotrel's dynamic, 122.
Semilunar bone, *see* Lunate bone.
Sesamoid bones of hallux, osteomyelitis of, 384.
Shoulder
arthrodesis for rheumatoid arthritis, *155.
rotator cuff
— repair by "supraspinatus slide", 243.
— tendinitis, chronic, surgical management of, 243.
Sprengel's deformity, *see* Scapula, congenital elevation.
Shriner's flexicurve assessment of scoliotic hump deformities, 245.
Silicones: Silastic replacement of radial head for fracture, *494 (*discussion,* 520).
Singapore University, Chair of Orthopaedic Surgery, appointment of Pesi B. Chacha to, 117.
Singh index in osteoarthritis and fractures of femoral neck, 257.
Skin grafting: microvascular free flaps for injuries of limbs with skin loss, 247.
Snake bite from barred spitting cobra: treatment by early *en bloc* excision, 259.
South African Orthopaedic Association, annual congress, 1978, 249.
Spanish Society of Orthopaedic Surgery and Traumatology, combined meeting with British Orthopaedic Association, 1978, 118.
Spastic paralysis, *see* Cerebral palsy.
Spina bifida
occulta, association with spondylolisthesis, 301.
scoliosis in, 122, 258, 386.
Spinal cord
congenital abnormalities, *see also* Diastematomyelia.
disorders, *see also* Syringomyelia.
injuries, 243; *review article,* *267.
— late anterior decompression for, 243.
paralysis, *see also* Paraplegia; Tetraplegia.
Spinal stenosis: factors in development of the syndrome, *306.
Spine, *see also* Back; Intervertebral discs.
cervical
— arthrodesis, anterior: Cloward technique using allograft bone, 242.
— injuries
— — fractures of atlas, 237.
— — posterior fusion for, 237.
— os odontoideum, 242.

*Indicates full article or appreciable part.

Spine *(continued)*.
congenital deformities, two-stage corrective surgery for, *324.
deformities, *see also* Kyphosis; Scoliosis.
— associated with spinal tumours in children, 386.
— in children, 259.
disorders, 229.
infections, 255.
— paravertebral abscess following Dwyer instrumentation, 239.
— pyogenic non-tuberculous, *47.
injuries with tetraplegia and paraplegia, 243; *review article*, *267.
lumbosacral, congenital abnormalities
— of sacrum, *401.
— segmental defects, association with spondylolisthesis, 301.
orthoses
— "corsets on and off", 384.
— Milwaukee brace, Edinburgh modification of, in treatment of progressive infantile idiopathic scoliosis, *36.
osteoarthritis, *see* Spondylosis.
osteochondritis juvenilis, *see* Scheuermann's disease.
osteotomy in ankylosing spondylitis, 244.
resection
— for congenital spinal deformity, *324.
— removal of third thoracic vertebra for giant-cell tumour, *489.
surgery, Weiss springs and Parham bands in, 240.
traction
— Cotrel's dynamic, 122.
— Cotrel's night traction for prevention of curves in scoliosis, 245.
tuberculosis, 255.
tumours
— in children, spinal deformity and, 386.
— osteoclastoma, radioresistant, treated by removal of third thoracic vertebra and partial lung resection, *489.
— treatment, operative, anterior approach for, 517.
Spondylitis, ankylosing, osteotomy of spine in, 244.
Spondylolisthesis
degenerative, nature of the deformity in, 247.
inheritance of, *301.
scoliosis associated with, 237.
Spondylolysis, direct repair of defect in, 123.
Spondylosis, Scheuermann's disease as predisposing factor, *56.
Sport injuries, *see* Injuries, athletic.
Sprengel's deformity, *see* Scapula, congenital elevation.
Steroids, adrenocortical, therapy
local injection of methylprednisolone acetate for simple bone cysts, *200.
necrosis of femoral head after: pre-clinical changes and their bearing on pathogenesis and treatment, 126.
Subtalar joint, arthrodesis, posterior, early, for fractures of calcaneus, *90.
Supraspinatus slide operation for rotator cuff repair, 243.
Surgical implant materials, *see* Acrylics, Carbon fibre; Metallic implants; Polyethylene; Polytetrafluorethylene; Silicones.
Synovectomy
of elbow for rheumatoid arthritis, place of excision of radial head in, *69.
of knee for rheumatoid arthritis, 121.
Syringomyelia, orthopaedic features in presentation of, *314.

T

Talipes, *see* Club foot.
Talus, vertical, congenital, 246.
treatment, *481.
Tarsal tunnel syndrome, 123.
Tarsus, *see also* Calcaneus; Talus.
coalition, association with ball and socket ankle joint, *85.
hypermobility of, after ankle fusion: fact or fiction? *470.
Technetium scanning of bone with labelled phosphates, biological basis of, studied by autoradiography, *221.
Tehran University, appointment of S. M. Rezaian to Foundation Chair of Orthopaedics, 386.
Telemetry in measurement of hip load forces *in vivo*, 381
Tendo calcaneus lengthening in cerebral palsy, 255.
variation in long-term results, *466.
Tenography: stress tenogram in diagnosis of ruptures of lateral ligament of ankle, *347.
Tenosynovitis, rheumatoid, of extensor tendons at wrist, tendon decompression for, *64.
Tetraplegia
reconstructive surgery for improvement of hand function in, 127
traumatic, 243; *review article*, *267.
Thermography in diagnosis of syringomyelia, *314.
Thompson arthroplasty of hip: Proplast-coated prostheses, tissue response to, 381.
Thromboembolic disease, post-operative
after knee surgery, prevention with pulsatile elastic stocking, 242.
diagnosis, 382.
Thumb
muscles, transmission of their power to pulp, 240.
replantation, 517.
Tibia
congenital anterior bowing: natural history and prognosis, 513.
congenital pseudarthrosis, 246.
fractures
— treatment
— — complications in, 248.
— — external skeletal fixation, 237, 252.
— — patellar tendon-bearing orthosis, 385
— with ipsilateral fracture of femur, 239.
growth
— role of periosteum in: experimental study in rabbit, *218.
— stump growth in children with below-knee amputations, *464.
injuries in children, Volkmann's contracture complicating, *285
osteomyelitis, acute haematogenous, in children, treatment of the tibial defect due to, *77.
osteotomy, proximal, *see* Knee osteotomy, double.
osteotomy-osteoclasis for correction of angular deformities, *410.
tumours
— haemangioma, intracortical, simulating osteoid osteoma, *94.
— of proximal end of, treatment by total resection, autogenous bone grafting and arthrodesis of knee, *455.
Tibial nerve compression in tarsal tunnel, 123.
Tibial tubercle advancement operation, 518.
Tibialis posterior tendon, anomalous insertion of, in congenital metatarsus varus, *74.
Toes
hallux, *see also* Hallux valgus.
— gangrene of, bilateral, induced by methysergide and ergotamine, *213.
— sesamoids of, osteomyelitis of, 384.
ingrowing toenails, treatment of, 384.
Tomography, computerised, position of patella in knee extension studied by, *443.
Tourniquets
complications of, 239.
effect on ultrastructure of skeletal muscle, *178.
optimal pressure levels for lower limb, 124.
physiological effects, 380.
Traction
bone lengthening by distraction, of radius in children, 119.
reconstruction of ankylosed joints using the "articular distractor", 516.
spinal
— Cotrel's dynamic, 122.
— Cotrel's night traction for prevention of curves in scoliosis, 245
Trauma, *see* Accidents; Fractures; Injuries; *and under structures involved.*
Trigger finger, 383.
Triquetrum, chip fractures of: mechanism of injury, *355
Tuberculosis
of hip
— healed, low-friction arthroplasty for, *144.
— reactivation after total replacement arthroplasty, *148.
of spine, 255.
of wrist, 246.

*Indicates full article or appreciable part.

U

Ulna
fractures, *see* Forearm fractures.
resection of head of (Darrach's operation), in rheumatoid arthritis, 64.
Ulnar nerve neuritis at elbow, results of operation for, *159.
Urinary bladder paralysis due to midline prolapse of intervertebral disc, *43.

V

Vascular disorders, *see also* Aneurysm; Gangrene; Ischaemia; Thromboembolic disease.
compartment syndromes, *see* Volkmann's ischaemia.
Vascular surgery
microvascular free fibular transplant for replacement of lower radius, *362.
microvascular free flaps for injuries of limbs with skin loss, 247.
Vascular tumours: haemangioma, intracortical, simulating osteoid osteoma, *94.
Vastus medialis, role in subluxation of patella, *169.
Vertebral column, *see* Spine.
Vitamin D: contrasting effects on bone formation and fracture healing of vitamin D_3 and of 1α-hydroxy vitamin D_3, 380.
Volkmann's ischaemia *(editorial)*, 265.
in children: aetiology and prevention, *285.
on splitting plasters: a useful analogy, *294.
pathology and prevention, *296.

W

Wagner's distraction apparatus, use in lengthening of radius in children, 119.
Walldius arthroplasty of knee: results compared with I.C.L.H. arthroplasty, *358.
Weiss springs, 240.
Wilson, R. I. appointed first Professor of Orthopaedic Surgery, Queen's University, Belfast, 378.
Wrist, *see also* Lunate bone; Triquetrum.
instability of carpus, 238.
rheumatoid, surgery of: decompression of extensor tendons, *64.
tuberculosis, 246.

Y

Yttrium-90 in treatment of haemophilic arthropathy, 257.

*Indicates full article or appreciable part.

CONTENTS

British Volume, 61–B, 1979

Editorials Page

Post-traumatic Ischaemia 265
D. G. A. Eadie

Histological Grading of Chondrosarcomata 393
George Meachim

Review Article

Spinal Injuries with Tetraplegia and Paraplegia 267
G. M. Bedbrook

Clinical, Pathological and Experimental Studies

Reduction of Neglected Congenital Dislocation of the Hip in Children Over the Age of Six Years 1
Henry Z. Herold and David Daniel

The Management of Late Diagnosed Congenital Dislocation and Subluxation of the Hip 7
R. S. Browne

Congenital Muscular Dystrophy 13
Rosamond Jones, Rafiqul Khan, Sean Hughes and Victor Dubowitz

Congenital Abnormalities and Perthes' Disease 18
Daphne J. Hall, Max H. M. Harrison and R. Geoffrey Burwell

Hip Dysplasia Without Dislocation in One-Year-Old Boys 26
A. B. Nevelös and P. R. J. Burch

Rib Resection in Infantile Idiopathic Scoliosis 31
John Barnes

The Management of Progressive Infantile Idiopathic Scoliosis 36
Michael J. McMaster and Malcolm F. Macnicol

Midline Prolapse of a Lumbar Intervertebral Disc with Compression of the Cauda Equina 43
Eddie C. K. Tay and Pesi B. Chacha

Pyogenic Non-tuberculous Spinal Infection 47
Judith M. Digby and Jonathan B. Kersley

Scheuermann's Disease or Spinal Osteochondrosis 56
A. Stoddard and J. F. Osborn

The Association Between Congenital Elevation of the Scapula and Diastematomyelia 59
U. Banniza von Bazan

Decompression of the Extensor Tendons at the Wrist in Rheumatoid Arthritis 64
P. J. Abernethy and W. G. Dennyson

Synovectomy of the Elbow in Rheumatoid Arthritis 69
S. A. Copeland and J. G. Taylor

Anomalous Insertion of the Tibialis Posterior Tendon in Congenital Metatarsus Varus 74
R. S. Browne and D. F. Paton

VOLUME CONTENTS

Page

Tibial Defect Due to Acute Haematogenous Osteomyelitis 77
John V. Fowles, Jean Lehoux, Mongi Zlitni, Mohamed T. Kassab and Bernard Nolan

Orthopaedic Problems in Adult Hypophosphatasia 82
J. Michael Anderton

The Ball and Socket Ankle Joint 85
G. M. Channon and B. J. Brotherton

Early Posterior Subtalar Fusion in the Treatment of Fractures of the Os Calcis 90
J. Noble and W. M. McQuillan

Intracortical Haemangioma Simulating Osteoid Osteoma 94
Fritz Schajowicz, A. C. Rebecchini and G. Bosch-Mayol

Cephalosporins in Bone Cement 96
Sean Hughes, Christine A. Field, Margaret R. K. Kennedy and C. H. Dash

Biochemical Disturbances Associated with Total Hip Replacement 101
John P. Alexander and David W. Barron

Juxta-articular Bone Cysts (Intra-osseous Ganglia) 107
Fritz Schajowicz, Manuel Clavel Sainz and Jorge A. Slullitel

Congenital Deficiency of the Fibula 133
Christopher Achterman and Ali Kalamchi

A Histological Study of Idiopathic Avascular Necrosis of the Head of the Femur 138
A. Inoue and K. Ono

Low-friction Arthroplasty of the Hip for Healed Septic and Tuberculous Arthritis 144
Kevin Hardinge, John Cleary and John Charnley

Reactivation of Tuberculosis after Total Hip Replacement 148
Robert Johnson, K. L. Barnes and R. Owen

The Treatment of Femoral Fractures by Cast-brace and Early Walking 151
A. E. Hardy, P. White and J. Williams

Arthrodesis of the Shoulder in Rheumatoid Arthritis 155
Vratislav Rybka, Pauli Raunio and Kauko Vainio

The Results of Operation for Ulnar Neuritis 159
Malcolm F. Macnicol

Sleeve Fractures of the Patella in Children 165
G. R. Houghton and C. E. Ackroyd

An Electromyographic Investigation of Subluxation of the Patella 169
P. P. Mariani and I. Caruso

The "Small Patella" Syndrome 172
James E. Scott and William S. Taor

Hallux Valgus in the Younger Patient 176
G. R. Houghton and R. A. Dickson

The Effect of Pneumatic Tourniquets on the Ultrastructure of Skeletal Muscle 178
S. Patterson and L. Klenerman

The Pathogenesis and Significance of Menisceal Cysts 184
H. J. Barrie

Malignant Fibrous Histiocytoma 190
David B. Spector, Jo Miller and J. Viloria

VOLUME CONTENTS

Page

Old Fibrin Coagula and their Ossification in Simple Bone Cysts 194
N. G. Sanerkin

The Effects of Methylprednisolone Acetate in the Treatment of Bone Cysts 200
O. Scaglietti, P. G. Marchetti and P. Bartolozzi

Extra-osseous Osteosarcoma 205
R. Lorentzon, S.-E. Larsson and L. Boquist

The Effect of Biopsy on Survival of Patients with Osteosarcoma 209
Lars-Åke Broströmm, Mariel A. Harris, Michael A. Simon, Daniel R. Cooperman and Ulf Nilsonne

Gangrene Induced by Methysergide and Ergotamine 213
T. Vaughan-Lane

School Screening for Scoliosis in Athens 215
P. N. Smyrnis, J. Valavanis, A. Alexopoulos, G. Siderakis and N. J. Giannestras

The Role of the Periosteum in the Growth of Long Bones 218
G. R. Houghton and G. D. Rooker

Autoradiography of Technetium-labelled Diphosphonate in Rat Bone 221
Ralph A. Khan, Sean Hughes, Peter Lavender, Mary Leon and Nicholas Spyrou

Total Replacement of the Knee 225
M. Tew and W. Waugh, and P. M. Aichroth, M. A. R. Freeman, I. S. Smillie and W. A. Souter

Volkmann's Contracture in Children: Aetiology and Prevention 285
S. J. Mubarak and N. C. Carroll

On Splitting Plasters 294
A. C. Bingold

The Pathology and Prevention of Volkmann's Ischaemic Contracture 296
C. E. A. Holden

Inheritance and Spondylolisthesis 301
Ruth Wynne-Davies and J. H. S. Scott

Factors in the Development of the Spinal Stenosis Syndrome 306
Arthur Naylor

Segmental Neurophysiological Mechanisms in Scoliosis 310
J. V. Trontelj, F. Pečak and M. R. Dimitrijević

Orthopaedic Features in the Presentation of Syringomyelia 314
Bernard Williams

Two-stage Corrective Surgery for Congenital Deformities of the Spine 324
Kenton D. Leatherman and Robert A. Dickson

A Prospective Study of Children with Untreated Catterall Group 1 Perthes' Disease 329
M. E. Blakemore and M. H. M. Harrison

The Natural History of Congenital Disease of the Hip 334
J. H. Wedge and M. J. Wasylenko

The African Neonatal Hip and its Immunity from Congenital Dislocation 339
A. P. Skirving and W. J. Scadden

Failure of Sliding Nail-plate Fixation in Subcapital Fractures of the Femoral Neck 342
T. I. S. Brown and C. Court-Brown

The Stress-tenogram in the Diagnosis of Ruptures of the Lateral Ligament of the Ankle 347
Gwyn A. Evans and S. D. Frenyo

VOLUME CONTENTS

Page

Reconstruction of the Anterior Talofibular Ligament for the Treatment of the Unstable Ankle 352
G. K. Sefton, J. George, J. M. Fitton and H. McMullen

Chip Fractures of the Os Triquetrum 355
Michael Levy, R. E. Fischel, G. M. Stern and I. Goldberg

A Comparison of the Freeman-Swanson (ICLH) and Walldius Prostheses in Total Knee Replacement . . . 358
A. N. Gibbs, G. A. Green and J. G. Taylor

Free Vascularised Fibular Transplant for Replacement of the Lower Radius 362
Robert W. H. Pho

Fibrosarcomata and Malignant Fibrous Histiocytomata Arising in Relation to Enchondromata 366
N. G. Sanerkin and C. G. Woods

Extra-abdominal Desmoid Tumours 373
A. McDougall and G. McGarrity

A Review of the Behaviour of Chondrosarcoma of Bone 395
N. G. Sanerkin and P. Gallagher

Congenital Sacral Anomalies 401
J. K. Stanley, Robert Owen and Steve Koff

The Correction of Angular Deformities of Long Bones by Osteotomy-osteoclasis 410
D. N. Smith and M. H. M. Harrison

Melorheostosis in Children 415
Derek Younge, Denis Drummond, John Herring and Richard L. Cruess

The Results of Revision of Total Hip Arthroplasty 419
Gordon A. Hunter, R. Peter Welsh, Hugh U. Cameron and W. Harvey Bailey

The Results of Reinsertion of a Total Hip Prosthesis after Sepsis 422
Gordon A. Hunter

Valgus Osteotomy in Severe Osteoarthritis of the Hip 424
F. Langlais, J.-L. Roure and P. Maquet

Serum Alkaline Phosphatase in Heterotopic Para-articular Ossification after Total Hip Replacement 432
Raymond A. B. Mollan

The Importance of Femoral Rotation in Chondromalacia Patellae as Shown by Serial Radiography 435
J. M. Sikorski, J. Peters and I. Watt

A Study of the Position of the Patella Using Computerised Tomography 443
H. Delgado-Martins

A Review of 100 Attenborough Stabilised Gliding Knee Prostheses 445
J. A. D. Vanhegan, W. Dabrowski and G. P. Arden

Late Failure of the Manchester Prosthesis 451
E. A. Williams, E. J. Hargadon and D. R. A. Davies

Total Resection of Distal Femur or Proximal Tibia for Bone Tumours 455
M. Campanacci and P. Costa

A Study of Stump Growth in Children with Below-knee Amputations 464
J. Christie, D. W. Lamb, J. M. McDonald and S. Britten

Variation in the Long-term Results of Elongation of the Tendo Achillis in Children with Cerebral Palsy . . . 466
D. Truscelli, A. Lespargot and G. Tardieu

Tarsal Hypermobility after Ankle Fusion—Fact or Fiction? 470
Andrew Jackson and Malcolm Glasgow

Page

Relapsing Club Feet 474
Keith Tayton and Peter Thompson

The Treatment of Congenital Vertical Talus 481
J. M. Fitton and A. B. Nevelös

Spontaneous Dislocation in Diabetic Neuropathy 484
John H. Newman

Removal of the Third Thoracic Vertebra and Partial Lung Resection for a Radioresistant Giant-cell Tumour of the Spine 489
Sven-Erik Larsson

Silastic Replacement of the Head of the Radius in Trauma 494
I. Mackay, B. Fitzgerald and J. H. Miller

Wear of High-density Polyethylene on Bone and Cartilage 498
B. M. Wroblewski

The Collagen of the Intervertebral Disc in Adolescent Idiopathic Scoliosis 501
G. R. Bushell, P. Ghosh, T. K. F. Taylor and J. M. Sutherland

In Memoriam

Walter Barham Foley 509

Christopher George Attenborough 510

Honour

Sir John Charnley, *C.B.E.*, D.Sc., F.R.C.S., F.R.S.—Awarded Albert Medal for 1978 by the Royal Society of Arts . 117

Proceedings and Reports of Universities, Colleges, Councils and Associations

Reports
